Objective

To obtain a Manager / Assistant Project Manager position (not necessarily in construction), where I can apply my leadership skills, technical background, and experience in project coordination, security systems, and team supervision.

Key Skills

- Project coordination and task planning
- Team and subcontractor management
- Installation and maintenance of engineering and low-voltage systems
- Experience in video surveillance and security systems
- Technical documentation and site reports
- Leadership of site teams, task distribution
- Responsibility for deadlines, quality, and logistics
- Supervision of high-rise projects (370+ meters)
- Basic understanding of automation and smart systems (IoT)

Work Experience

Supervisor / Assistant to Project Manager – BEYOND Tower

Schindler, Israel | Aug 2023 – Present

- Working on Israel's most ambitious high-rise project – BEYOND Tower (370+ meters)
- Coordinating site teams, controlling schedules and deliveries
- Supervising subcontractors and quality of installations
- Ensuring technical and safety compliance

Site Manager / Team Leader (started as Technician)

Yuri Coms (main contractor for Partner Telecom), Israel | 2019 – 2023

- Fiber optics installation for data centers and communications infrastructure
- Maintenance of communications systems
- Partial work with low-voltage and security systems
- Leading teams and managing regional zones
- Working with documentation and SLA procedures

Education

Technical College – Metal Machining (Milling)

Ukraine | 2008
