

Igor Goncharenko

Project Manager & Supervisor | Infrastructure & Operations [Email] | [Phone] | [City, Israel]

Professional Summary

Results-oriented Project Manager and Supervisor with a proven track record in managing complex infrastructure and engineering projects (e.g., BEYOND Tower, 370m+). Expert in coordinating field operations, managing subcontractors, and ensuring strict adherence to safety and quality standards (ISO 9001). Recognized for a "Big Head" proactive approach, technical problem-solving, and the ability to leverage modern technology—including AI tools—to optimize workflow and efficiency.

Professional Experience

Schindler Group | Supervisor / Assistant Project Manager

August 2023 – Present | Israel

- **Key Project: BEYOND Tower** – Managing elevator installation in one of Israel's tallest intricate skyscrapers.
- **Site Management:** Direct supervision of installation teams, ensuring alignment with project timelines, safety regulations, and architectural specifications.
- **Coordination:** Acting as the primary liaison between project management, subcontractors, consultants, and site logistics.
- **Operational Excellence:** Implemented "Just-in-Time" logistics strategies for efficient material delivery in a constrained urban construction site.
- **Tech Integration:** Utilized digital reporting tools and cloud-based project management software for real-time progress tracking.

URICOMS (Partner Communications Contractor) | Fiber Optic Team Lead

2019 – 2023 | Israel

- **Leadership:** Led teams of technicians in the deployment of FTTx (Fiber to the Home/Building) infrastructure across large residential areas.
- **Quality Control:** Enforced strict installation standards, resulting in a significant reduction in repeat service calls.
- **Training:** Mentored new technicians on optical splicing, troubleshooting, and customer service best practices.

Vira & Assembly Ltd. | Elevator Installation Technician

2020 – 2022 | Israel

- **Hands-on Execution:** Performed complex mechanical and electrical assembly of elevator systems with precision and adherence to safety protocols.

Technical Skills & Hobbies

Personal Project: "Unified AI System" (High-Tech Hobby)

A self-initiated project demonstrating advanced technical literacy and the ability to define, manage, and execute complex technical visions using AI assistance.

- **AI-Driven Development:** Designed and deployed a complete Home Automation ecosystem by leveraging AI agents (Claude, GPT-4) to generate 100% of the code (Python/FastAPI).
- **System Architecture:** Managed a private cloud infrastructure (Proxmox, Docker) hosting Home Assistant, Local LLMs (Ollama), and Secure Mesh Networking (Tailscale).
- **Smart Home Integration:** Integrated complex IoT devices, voice assistants, and monitoring dashboards, showcasing strong systems thinking and integration skills.

Education & Certifications

- **Mechanical Engineering Training** (3 Years)
- **Certifications:** Work at Height, Forklift License (up to 20 Tons), Driver's License (Type B).
- **Military Service:** Israeli Air Force (IAF), Driver, Staff Sergeant (2013–2015).

Languages

- **Hebrew:** Professional Proficiency
- **Russian:** Native
- **English:** Basic/Communicative
